

South Eastern & Chatham Railway Society

Register of 7mm scale kits, RTR items, and line-specific ancillary items

Introduction

The purpose of this register is to list kits of rolling stock and line-specific ancillary items available for modelling the SER, LCDR and SE&CR in 7mm scale. A brief indication of the main materials used is included but no assessment is given as to ease of construction. The few RTR items available from manufacturers, i.e. not items custom-built to order, are shown. While not kits, it was thought that listing these items would help a potential modeller. When you find an item of interest, you should contact the manufacturer for further details, price, etc.

Inclusion of a supplier in this list does not imply approval, nor by their absence disapproval, of the SE&CR Society. Inclusion of a kit or item in this list does not mean that Society validates it as an accurate representation of the prototype. If a kit or item is not listed, this will generally mean it is not in production. This may be due to a change of ownership and the non-availability is temporary, or the manufacturer may have ceased trading. Such items may still be available second-hand.

The supply of kits and ancillary items to railway modellers is often in the cottage industry sector. Consequently, supply can be variable, proprietors retire, businesses are taken over, addresses change and some items cease to be available. This list can, therefore, only be taken as a starting point for your own enquiries. Most manufacturers have a website. Manufacturers' contact details are shown at the end of the list.

If, on reviewing the list, you are aware of items suitable for inclusion, or where production/sale has ceased or when a manufacturer has changed name or address details, please advise the Secretary of the SE&CR Society via our website.

The register is sub-divided into six parts as follows:

- | | | |
|-------------------|-----------------------|------------------|
| 1) Locomotives | 2) Coaching stock | 3) Wagons |
| 4) Lineside items | 5) Paints & Transfers | 6) Manufacturers |

Manufacturer Abbreviations:

ACE	ACE Loco Kits	BSH	Blacksmith Models
BL	Basset-Lowke	DA	David Andrews
DRA	Dragon Models	FRC	Furness Railway Company
FSB	Finescale Brass	FOX	Fox Transfers
GLA	Gladiator Kits	LG	Laurie Griffin
MM	Meteor Models	Mou	Mousa Models
POW	POWSides	RAG	Ragstone Models
ROX	Roxey Mouldings	RPM	RPM Models
SAT	Steam and Things	SERK	SER-Kits
S&D	S & D Models	SKR	Skytrex Ltd
Slaters	Slaters (Plasticard) Ltd	SM	S M Models
WIZ	Wizard Models	WW	Worsley Works

For all kits – check for items NOT supplied with the kit, eg., motor, gears, wheels. In the case of some coach kits, detailing kits may be available as a separately supplied item. Some kits may have only sides and ends and minimal underframe detail, i.e. aids to scratchbuilding.

Material abbreviations:

BR	Brass	CB	Cast brass	EB	Etched brass
ENS	Etched nickel silver	LMA	Low Melt Alloy	PLS	Plastic
RES	Resin	STL	Steel	STY	printed on styrene for lamination (inc all necessary castings and etchings)
WM	White metal
